Prospects for development of business systems in global environment

Nataliia Parkhomenko, Doctor of Science , Associate Professor,
Professor of the Department of International Economic Relations,
Simon Kuznets Kharkiv National University of Economics, Ukraine

Lucia Vilčeková, PhD, Associate Professor,
Vice-Dean of the Faculty of Management,
Associate Professor of the Department of Marketing,
Comenius University in Bratislava, Slovakia

The specifics of the development of business systems in the conditions of the global environment are determined by the conditions of their development, as well as the set of objects of the global space, the change of which affects the functioning of business systems.

It is advisable to monitor the global environment on the basis of ratings by international and domestic institutions and agencies : World Economic Forum, Heritage Fund, the Swiss Economic Institute, World Bank, Forbes, Boston Consulting Group, Fortune, Clarivate Analytics, Fast Company, Delo.ua, Business Censor etc.
